

The Press

Kanagawa University of Human Services

The University's very first "University-launched Venture Company" was established

To support healthcare in developing countries
with a medical device management and education system
using Japanese clinical engineering technology

Graduate School of Health Innovation (hereinafter SHI) at Kanagawa University of Human Services is fostering the next generation of healthcare innovators in areas of social system and cutting-edge technologies based on "ME-BYO" concept.

We are pleased to announce that our graduate, Daisuke Inagaki, has established "Redge Inc." as the university's very first "university-launched" venture (research venture) company.

1 Outline of the company

Company Name: Redge Inc.

Date of Establishment: Thursday, May 26th, 2022

Representative (CEO): Daisuke Inagaki (completed the program at SHI in 2022)

Company Address: Research Gate Building TONOMACHI 2, 1C

25-10, 3Chome, Tonomachi, Kawasaki-ku, Kawasaki-shi

Business Range: Research, development and sales of medical device management and education system

Company Vision: To realize a world with medical safety and quality guaranteed to all people through establishing a medical device network, as well as developing medical device management and education system.

2 Support and Cooperation from the University

This project was backed up by the GAP Fund Program of JST*'s SCORE** University Promotion Type (Developing the Environment for Creation of Startup Ecosystem in Startup Cities Type) T-UNITE *** platform, in which the University has participated as a joint institute.

We, primarily the faculty supervisor of Mr. Inagaki, have been providing companionship and support to him, who aspired to start his own business, with opportunities to receive advice and guidance from experts, as well as assistance for the contest application.

We will continue to provide support for solving social issues through entrepreneurship by participation in GTIE****, the successor to T-UNITE, as a joint institute, and utilization of our university's network and other resources.

- * Japan Science and Technology Agency
- ** Program of **Start-up** incubation from **COre Research**
- *** Tokyo United Network for Innovation with Technology and Entrepreneurs
- **** Greater Tokyo Innovation Ecosystem (<https://gtie.jp/>)
